

## INSTALLATION INSTRUCTIONS

**SAFETY WARNING:**

- This lighting fixture must be installed by a qualified contractor, in accordance with local and national electrical codes.
- Make sure all power is turned off before installing or performing any maintenance.
- Fixture can become hot, allow to cool before performing any maintenance.
- Fixture is not submersible and must be installed above ground.

**MOUNTING:**

1. Use thread sealant to seal the fixture stem threads.
2. Thread fixture into 1/2-NPS mount on junction box, ground box or ground spike. Tighten with included locknut.

**ELECTRICAL WIRING:**

1. Fixture voltage 12 VAC, separate 12V transformer required.
2. Connect fixture wires to 12V supply wires in a waterproof wiring enclosure and/or use waterproof wire connectors. Use wire rated for min. 90° C.

**LAMP INSTALLATION/REPLACEMENT:**

Lamp Type: 12V halogen MR8, Bi-pin base 35W max (by others).

1. Unscrew and remove hood.
2. Remove old lamp by pulling it straight out.
3. Reverse previous step for the new lamp.
4. Inspect o-ring and remove any dirt or debris that may prevent proper sealing.
5. Screw hood on hand tight.
