

## LED Lighting has evolved!

We are proud to introduce the new Evolution Series by Hevi Lite. Our LED light engines are using the latest high power LED technology, allowing for better efficacy and clean beam spreads.

The single optic lenses produce sharp focus, with no shadowing or overlap. The high output HL-920 and HL-925 fixtures are utilizing the efficient Xicato COB with replaceable reflectors. The MR-16 and HL-915 are utilizing newer single optic lenses with Cree LEDs.

See inside for lumen output comparisons of our standard accent light line, along with the Evolution LED's.

## Announcing Hevi Lite's New **Evolution Series** of LED Lighting

ARCHITECTURAL, LANDSCAPE  
AND CUSTOM LIGHTING

## HL-360

MODEL	LUMEN OUTPUT
3 Watt Standard	180
8 Watt Standard	300
8 Watt Evolution	565

## HL-915

MODEL	LUMEN OUTPUT
5 Watt Standard*	300
15 Watt Evolution*	950

\*The actual power consumption is:  
 5 Watt = 7.1 Watts actual consumption  
 15 Watt = 11.5 Watts actual consumption

## HL-920

MODEL	LUMEN OUTPUT
Xicato L30	700
Xicato L40	1300

## HL-925

MODEL	LUMEN OUTPUT
Xicato L40	1700
Xicato L50	2400

80 + CRI standard  
 90 CRI available

### Comparison Across Models

MODEL	LUMEN OUTPUT
HL-360-3 3 Watt	180
HL-360-8 8 Watt	300
HL-360-8E 8.4 Watt	565
HL-915-5 7.1 Watt	300
HL-915-15E 11.5 Watt	950
HL-920-L30 9.1 Watt	700
HL-920-L40 18.9 Watt	1300
HL-925-L40 18.9 Watt	1700
HL-925-L50 29.3 Watt	2400
